Heights. SPEAKER COLFAX'S RECEPTIONS are to be every Friday evening, from 8% to 11 p. m. THE NATIONAL DEMOCRATIC COMMITTEE .-The National Democratic Committee adjourned

ine die. Saturday evening. No distinction whatever was made in the committee between members from loyal and rebel States, and the representatives in the National Convention are to consist of twice the number of Congressional Representatives to which each State is entitled by the last appointment. In this resolution no allusion is made to excluded States. Eight States were not represented in the Committee, viz: Caliornia, Georgia, Florida, Louisiana, North Carolina, Virginia, Rhode Island New Jersey, New York was designated by a very decided majority. There was heavy lobby pressing for New York and the other contestants. The New Yorkers in the lobby applauded the result by clapping of hands, and were with difficulty restrained from loud demonstrations of satisfaction. The result appears to be satisfactory. Twenty-eight States were represented in the

Convention. The only resolution passed by the committee was one declaring that the call for the National Convention shall embrace all who are willing to aid in maintaining the Union and opposed to radicalism.

Just previous to the adjournment, General Ewing and some other members of the Soldiers' and Sailors' Union were admitted into the committee room, and formally announced to the President that they would call their convention to meet in New York at the same time to give aid and co-operation to the effort to overcome radicalism

There is considerable outside pressure to induce the committee to remain after the session is terminated to advise with the President in reference to his present complications; but the meets with strong opposition, both from members of the committee and leading members of the Democratic party assembled here. They say the President is not of their election; that in this matter he did not consult Democrats, that it is not his custom to confide his important movements to them; and that it is not advisable for the Democratic party to identify itself with Mr. Johnson's policy so far as it relates to movements of the character in

From the expression of opinion made, the committee is almost unanimously opposed to he nomination of Penaleton for the Presidency. Mr. Seymour, of New York, is talked of, and receives the voice of many of the representalives of the eastern States; but his claims seem have, as yet, assumed no definite shape, There were some indications that the name of tien. Dix will at the proper time be presented for the Presidency, as combining civil qualifications and a good military record. Senator hendricks, of Indiana, will be pressed by his own State.

No person has as yet turned up from Penn--vivania, unless in the name of Gen Hancock, but mention of his name in connection with the nomination for the Presidency does not meet much favor. All propositions favoring his nomination are met with the reply, "We don't want a soldier, we want a civilian," upon the grounds that in the walks of civil life a person better suited to manage questions of a civil character is to be found. The most marked coanimity was manifested in regard to the choice of John Quincy Adams, of Musachusetts, for the Vice Presidency, and, aside from the many contingencies likely to arise between the present and the date of the nominating Convention, his chances are more sure than

those of any of the others. From this list there seems to be no doubt the choice will come, and the friends of each will commence to organize to bring as much pres--use as possible to bear upon the Convention in der to carry their candidate.

The following gentlemen were appointed an Executive Committee to draw up an address: August Belmont, of New York, chairman; F. O Prince, of Massachusetts; W. A. Galbraith, of Pennsylvania; W. F. Story, of Illinois; Geo. It. Paul, of Wisconsin, and Lewis V. Boggy, of

It is understood that an executive committee, as a branch of the National Democratic one, has been appointed, to have the usual political aftaurs in charge, and that therefore the necessity of a resident committee at Washington no longer exist. The executive committee have adjourned. to meet in New York on the first day of June.

THOSE WHO ARE ACCUSTOMED to regard stalistics as a sober and solemn reality will, we fancy, be rather surprised to know that they are classed by the men who make them as of the vanities and trivolities of life. Such is manifestly their view, however, as we perceive, by public proclamation in the columns of a cotemporary, that the lectures of the Sta-

tistical Society are suspended until after Lent. An admission of this kind is an interesting and important concession of itself; but when to it is added that tender regard for religious seatiment which declines the obtrusion of scenes of gavety and levity during the lenten season, the act becomes touching, and in the highest degree commendable. It should, as we doubt not it will, when the hilarious and frisky prelections may be properly resumed, secure from an appreciative public substantial reward.

THE NEAR CLOSE of the gay season was fit. tingly marked on Saturday afternoon by one of those attractive and pleasant matinees for which the elegant mansion of Senator Sprague is noted, and which was enjoyed by a select and brilliant assemblage of triends. Dancing was one of the features contributing largely to the pleasure of the occasion, but not more than the elegance of the general display and the graceful hospitality of the hostess and her accomplished sister, Miss

-----MISSOURI RADIOAL STATE CONVENTION .-In the Saturday afternoon session of the Missouri Radical State Convention at St. Louis, a permanent organization was effected by the election of Lieutenant Governor Smith, chairman, with a vice-president from each Congressional district, and Captain Colby, secretary. The following delegates at large were elected: General Charles S. Scurtz, Gov. Fletcher, Calvin Horn, Hon. A. J. Harlan Resolutions were adopted declaring "That we are in favor of the admission of the States lately in rebellion to full and complete representation in congress as soon as they shall give ample guarantees of their future loyalty and fealty to the Government, and of equal political rights to all citizens of such States. Tuat the Radical party of the State of Missouri express our preference for U.S. Grant as our candidate for President of the United States, upon the National Republican platform."

Resolutions were also adopted and telegraphed to Secretary Stanton :- "That the law passed by the Congress of the United States by the constitutional vote over the veto of the President is a law of this land, to be obeyed by all, from the highest to the lowest, and that the action of the President is as much bound by it as any citizen. That we send greeting to the Radical Congress and to E. M. Stanton and General Grant, with the assurances that loyal Missouri to a man will stand by them by acting. President Johnson and every man of this country shall bow in obedience to the law of

THE TYNG CASE.-The New York Sun, reviewing the case, comes to the conclusion that Mr. Tyng's course in the matter has not been one as becoming his position as an ordained priest of the church as a might have been. If he language of the canon which occasioned the controversy has been, by usage and the lapse of time, rendered inoperative to express its true acceptation, he should have taken the proper steps to have it changed by those who are authorized to change it. If, again, he desired to test the question of its construction, he might have done so by some act which would have shown that desire, without placing himself in the attitude of a schismatic. Then, his reputation, whether the decision were against him or his favor, would have been equally intact with his opponents and with his friends; but now, even an acquittal will not exonerate him from the charge of having shown a wilful disregard of the written law to which his obedi-

[Intel., Chron., Rep., Sun. Her., Exp., Con. U.-tf] GREAT FALLS ICE COMPANY, This company respectfully announces that they have completed their arrangements for supplying

the community with ice. By steam machinery of the most approved plan, erected at each of our pends, we have stored about twenty thousand tons of as pure ice as can be found anywhere. We have also made arrangements to furnish Boston and Kennebec ice to those who may desire to be supplied therewith. Not having been prepared to furnish the public with a full and constant supply of ice. stant supply of ice last year, we sold all we then harvested to Messrs. Fowler, Middleton & Godey, (the Georgetown and Washington Ice Compan, ) at their offer, at \$3.75 per ton, delivered and weighed daily at their depots, under their promise to supply command of the national forces.

It to the public promptly, and at such advance upon its cost as would yield them a fair profit thereon. How they fulfilled their promises their many victims can answer. They retailed our ice at from TWENTY TO THIRTY DOLLARS per ton, often representing it as Boston ice, than which it was in no

way inferior. We did not consider their attempts to underrate the Great Falls ice as worthy of our composed of our own citizens, this company have determined to carry on the "ICE BUSINESS" in such a manner as to protect the community from MONOPOLY and IMPOSITION. We employ during the winter season from three to four hun-dred resident mechanics and laborers, and expend in and secure to this District thousands of dollars which would otherwise be sent abroad.

The people of the District will hereafter be supplied with our ice by indepedent retailers, whose interest it will be to furnish it at the lowest prices,

FINANCIAL AND COMMERCIAL. There was nothing doing in the New York money market Saturday as the Banks were all closed. There was great excitement and activity in gold all day, and from ten to fifteen millions changed hands. The price ranged from 142 to 143, closing at 142%. The news from this city caused considerable excitement as it was, and the proceedings of Congress on impeachment are awaited with great anxiety.
